5A. FFY25 Anticipated Application Activity (AAA) Spreadsheet (5 Minutes)[25-131](#)**Filmon Fishastion, TPO Staff****Purpose:**

- To identify all planned TrAMS applications and amendments early in FFY25, consulting with our Federal Transit Administration (FTA) pre- and post-award managers in advance, to move our applications forward.
- To update our Agency's Point of Contact Information.

The AAA instructions and deadlines are included as an attachment.

When ready, the TPO will populate the attached "FFY25 AAA Recipient Spreadsheet" with DRAFT applications entered in TrAMS producing a **Temporary FAIN**.

- If there are any lapsing funds the TPO does not plan to apply for, TPO staff will e-mail rodney.n.williams@dot.gov and Robert.buckley@dot.gov, copying our pre-award manager.

- If any funds/applications are identified as "critical", TPO staff will provide an email or written documentation from our agency's GM/CEO affirming the "critical" designation along with a brief rationale.

TPO staff will delete any obsolete or redundant grant applications in TrAMS created in the past that we do not plan to advance.

Once done, TPO staff will complete the AAA (all columns) and email the completed AAA to FTATRO4@dot.gov, with a CC to Robert.sachnin@dot.gov, Elizabeth.Orr@dot.gov and Aviance.Webb@dot.gov.

Also attached is an application reminders briefing to assist in our grant development efforts.

Board Action: Authorize staff to amend the TIP bypassing required public comment periods if the executive director determines that such amendment is necessary to comply with updated USDOT and FTA guidance and the following circumstances are met:

1. Funding is verified as the result of Federal and/or State programmatic formula funding grants or discretionary grant awards; and
2. The project sponsor requests the amendment prior to June 30, 2025.

6. SPOT Local Input Points Methodology Release for Public Comment (10 minutes)[25-123](#)**Filmon Fishastion, TPO Staff**

In the SPOT 8.0 process, the first step is to update the Methodology for Identifying New Transportation Improvement Program Project Requests. The Triangle West TPO will use this Methodology to select projects for submittal into SPOT 8.0.

The existing Methodology was drafted during the SPOT 6.0 cycle and amended during the SPOT 7.0 cycle. The updated draft Methodology is based on the 2023 Methodology with the following changes:

-Separation of the project selection methodology from the assignment of Local Input Points

-Updated schedules

-Additional changes may be announced by the SPOT Workgroup

Significant changes from the previous Methodology are highlighted in the draft document in red. According to the current TW TPO Public Involvement Policy and NCDOT guidance, the Methodology should be released for a public comment period and a public hearing must be held.

TC Action: Provided input on the draft Methodology and recommended that the TPO Board release the draft Methodology for public comment.

8. Destination 2055: Deficiency and Needs (20 minutes)[25-125](#)**Yanping Zhang, Modeling Manager****Dolly Hall-Quinlan, TPO Staff****Eve He, TPO Staff**

The Deficiency and Needs Analysis is the second step in developing the 2055 MTP, following the Goals and Objectives phase. This analysis evaluates traffic and transit conditions at the regional, corridor, and roadway levels to identify future transportation deficiencies. It does so by modeling a 2020 transportation network plus committed projects and transit services with 2055 population and employment projections, a method often referred to as a future no-build scenario. The attached presentation provides insights into the data and graphical tools used in this analysis, helping stakeholders better understand the findings.

TC Action: Recommended that the Triangle West TPO Board release the 2055 MTP Deficiency and Needs Analysis for a 30-day public comment period.
