12. Comprehensive Transportation Plan Amendment-Pettigrew Street Ext.**26-175****Monet Moore, Principal Planner, Triangle West TPO****Eric Vitale, Transportation Planner, City of Durham**

The City of Durham Department of Transportation is bringing forward one proposed amendment to the 2017 Comprehensive Transportation Plan (CTP). The proposal is to remove the Pettigrew Street Extension (East) project.

The Pettigrew Street Extension (East) project amendment reflects a changed condition since 2017. The alignment now crosses the site of AbbVie's planned \$1.4 billion pharmaceutical manufacturing campus, and the developer intends to construct a private, secured roadway rather than a public street.

TC Action: Recommend that the Triangle West TPO Board release the Pettigrew Street Extension CTP Amendment for a 45-day public comment period.

13. Local Input Point Approval for Prioritization 8.0 (10 minutes)**26-158****Filmon Fishastion, Transportation Planner, Triangle West TPO**

On March 24, 2026, the Triangle West TPO Board approved the revised TWTPPO Methodology for Identifying and Ranking Transportation Improvement Program (TIP) Project Requests, which was subsequently approved by NCDOT on April 2, 2026. The methodology directs TPO staff to apply certain criteria to all projects as an initial determination of which projects should receive local points. The approved methodology is provided in the attachments for reference. Also attached is a list of projects and their local input point assignments. Since the initial list of projects to receive local input points in the Statewide Prioritization Process was created, TPO staff have continued to coordinate with the TPO's local and regional partners to get a better sense of both local and regional priorities and identify and document any potential deviations from the initial list of projects. A report is included with this agenda item summarizing the TPO staff's coordination efforts and outreach efforts. Also attached to this item are the most recent Local Input Point lists from our neighboring MPOs/RPOs. These lists are DRAFT versions pending approval from their respective Boards. The MPO's local input point assignments are to be approved and submitted to the North Carolina Department of Transportation (NCDOT) by August 28, 2026. An interactive report of the public comments can be viewed using this link:

<https://PublicInput.com/Report/jwsp3r230lj>"

TC Action: Recommend that the Triangle West TPO Board adopt the Local Input Point assignment for submittal to NCDOT and direct staff to maximize coordination with Division Engineers which may result in point adjustments with Chair approval.

14. Revisions to the Federal Funding Policy (5 Minutes)**26-162****Colleen McGue, Planning Manager, Triangle West TPO**

At the Technical Committee meeting on June 2, 2026, the TC identified an inconsistency within the Federal Funding Policy. This update removes this inconsistency regarding eligibility of roadway projects with a design that addresses a documented non-motorized safety concern. The Triangle West Public Participation Plan requires a 30-day public comment period for updates to the Federal Funding Policy which started on June 16th 2026 and concluded on July 16th 2026. No public comments were received, and therefore the proposed Revised Policy is consistent with what was released to the public.

TC Action: Recommend that the Triangle West TPO Board adopt the update to the Federal Funding Policy.

The Project Agreement template, now required for LAP projects funded by Triangle West TPO as part of the Federal Funding Policy, has been reviewed by member agencies and revised with recommended changes. Once adopted, project sponsors will enter into agreement with Triangle West TPO.

TC Action: Recommend that the Board adopt the Project Agreement Template.
